

## THE BEST IN ELECTRICAL NETWORK MONITORING

**EXPERTISE | SERVICE | PREVENTION**

### THE PREVTECH DIFFERENCE

Alarms alone do not prevent fires. In addition to monitoring your network, we provide a team of experts that assists you as soon as a risk is detected.

#### **REAL-TIME 24/7 MONITORING**

Detects:

- Electrical problems such as faults and anomalies
- Overheating of electrical panels
- Potential machinery breakdowns
- **NEW:** Continuous stray voltage diagnostic

#### **ASSISTANCE, SERVICE & EXPERTISE**

PrevTech is the only electrical network monitoring solution that provides the assistance of a team of experts, available to help you prioritize and diagnose cases.

#### **QUICK AND EASY INSTALLATION**

The PrevTech solution is easy to install by a certified electrician.

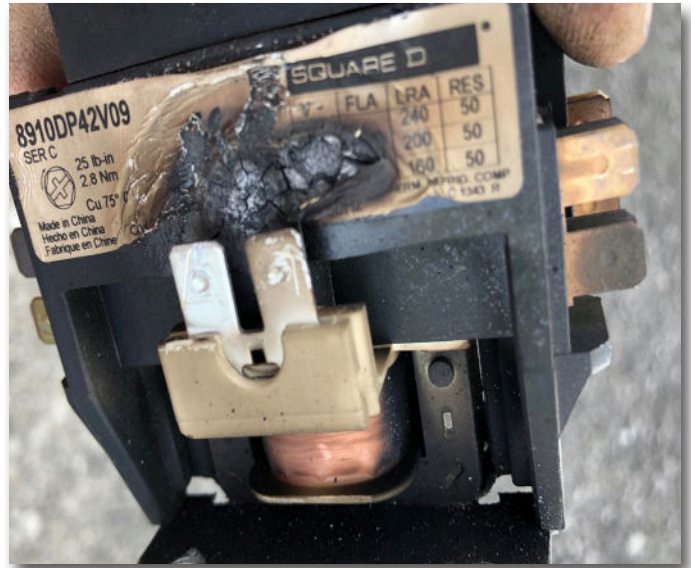

#### **THE MOST RECOGNIZED BY INSURERS**

Recognized by insurers for risk management and preventive management benefits. We have performed over 3,300 successful installations to date.

# REAL PROBLEMS DETECTED BY PREVTECH
